

Copenhagen 07.27.83.

To whom it may concern.

The first I want to mention is, that I am a medical doctor, working in the psychiatry area.

Next, I would like to tell You that for 8 year Bhagwan Rajneesh have had a strong influence on my life. His books and meditations have that way been an inestimable nourishment for my personal progress. I consider Bhagwan to be one the greatest living spiritual/religious leaders in the world, and I am very concern about his legal right to stay in United State, has been Questioned on the basis of that.

Yours sincerely,

SØREN THIESEN
