

Mr. Samada
7. Box 10
Rajneeshpuram
Oregon

To whom it may concern,
as a public school teacher and as a private person I
want to express my delight to be able to be around
Bhagwan Shree Rajneesh here in the USA. For many
years I tried to find ways to teach and live in a
more freely and human way than what I knew.
As many others I tried it within and without the
existing school system. We all see the fear and the
competition that blocks our kids and us to learn
and grow to our full capacity. Uncounted books
gave me hope to teach without all these
hindrances and to give everybody the same chance
to unfold. Most of the teachers I know drown their
hopes in alcohol at the end of the day. I had to
see my limits and realize that all my hopes
were more of a dream than reality.
After years of searching for a place or a way where
people could just flow in their own way, where
everybody can just be himself and yet not in the
way of others - I found Bhagwan Shree Rajneesh.
Without any theoretical approach or dogmatic teachings
people are flowing around him in an unknown
way. What hundreds of books couldn't do to me
his presence does to me and many others effortlessly.
Like children respond to nourishment with laughter
and love, everybody responds to Bhagwan with
laughter and love. His presence is the nourishment

of our souls. His unconditioned love penetrates everything in Rajneeshpuram, the way people worship, live and relate with each other. His acceptance teaches us acceptance, his love makes us loving and his silence puts our insides to peace. Whenever you meet him you forget about fighting and move into thankfulness. The climate around him is a miracle - what more can we give to us and to our children? I don't know who he is, but I know that whatever happens around him is what I was looking for all my life. I am so happy that he is in the USA now, so he can be available for so many more people, who are looking for more in life. He is a new hope for us. A hope to get both: to fly to the moon and to have our souls fly high as well. He proves that it is possible to live in peace and harmony without fear and competition, it happens on its own accord around him. America must be proud to have both - the highest flower of technology and the highest flower of human being. I hope America's search for the best and the higher is stronger than its fear of the new.

Come here and see and you will immediately sense what a gift Bhagwan is to the world and especially to the USA.

Thank you Bhagwan for being here
Sincerely Ma Samada
