## TO WHOM IT MAY CONCERN

I hold a Degree of Bachelor of Arts (Natural Sciences) from the University of Cambridge and am a practising Solicitor of the Supreme Court in England and Wales.

I confirm that I have heard of Bhagwan Shree Rajneesh over many years, through his books, discourses and Disciples, and indeed several of my friends and colleagues have subscribed to his teachings and become neo-Sanyassins and remain so. I visited the Shree Rajneesh Ashram in Poonam in 1978 and have on several occasions visited Medina Rajneesh, the Headquarters of his Following in this country. I wish to make it plain, however, that I am not myself a Follower of Bhagwan Shree Rajneesh, nor have I ever been.

I am, however, in a position to confirm that Bhagwan Shree Rajneesh falls to be considered as an exceptional figure by virtue of the breadth and depth of his teachings, the prolific nature of his works and the beneficial effects which his teachings appear to have on his very numerous disciples.

He has certainly made a substantial contribution to World philosophy and is of World-renown.
