To Whom It May Concern:

This letter comes in support of the Bhagwan Shree Rajneesh. As a practicing psychotherapist in the Chicago area, I have come into contact with this man through his writings and by way of several friends who know a great deal of him.

The field of Psychology is a science which is growing at a rapid rate. Theoreticians publish their ideas so frequently, and from such divergent perspectives, that it is often extremely difficult to integrate the plethora of views, perspectives and theories.

The Bhagwan consistently integrates these notions as few other men in this field. Although he does not specifically write for this field (i.e., Psychology), his writings are lucid and candid. I, and several colleagues in my acquaintance, frequently refer to his writings and views when needing clarity relative to psychotherapeutic issues.

There is no question that he is a significant contributor to the science of Psychology in this country today. We would lose a valuable commodity if he is not allowed to stay in this country.

I respectfully request that the Bhagwan Shree Rajneesh be allowed the privilege of living and working in the United States and that he be granted permanent status.

Thanking you for your attention in this regard, I remain,

Sincerely,

Paul Guistolise, M.S.
