TO WHOM IT MAY CONCERN

Even though I am not a sannyasin but an Orthodox Hindu, Rajneesh's teachings moved me to the extent that I can recognise Rajneesh as a holy man.

When I heard that He had left India for America I felt sad. Sad because He was leaving India. Many intelligent Indians know him or read His books—even the Prime Minister Indira Gandhi has read a number of His books.

Surrounding, on the other hand, Rajneesh there was always controversy; for me that is a mark that the religion is alive.

India would I'm sure gladly have Bhagwan back but I feel that the west needs more spiritual attention than the East.

I hope that very soon Americas will recognise Rajneesh. The roots of Rajneeshism are in India and will flower in America.
