TO WHOM IT MAY CONCERN

I am a Motion Picture Producer and Director with a very successful run of Films to my credit.

I came across Bhagwan Rajneesh during a shooting spell in Pune, where I went to hear one of his discourses. I cannot describe my feelings. Here was a person who called a spade a spade and expressed Life as a moment-to-moment joyous existence. His deep and clear understanding of the Arts and Sciences astounded me. Needless to say, I became his instant fan.

Since then I have been listening to his tapes and reading his books and have enriched myself from his knowledge and perceptivity.

Meeting with him has been a turning point in my Life. I am more dedicated to my work, enjoy doing it and do it with total involvement.

I am sad that he has left this country. India has lost a gem. USA has been blessed.
