To whom it may concern

I, Bengt Eggemar, work with innovations for development of international sport and leisure facilities. For that purpose I have been consulted by the Swedish Government for 15 years. I am manager for three companies, "Project & Product Innovations", "Swedice Ltd" and "Data Sport Ltd" and in my work I am supported by the National Swedish Board for Technical Development and Swedish Sports Research Council.

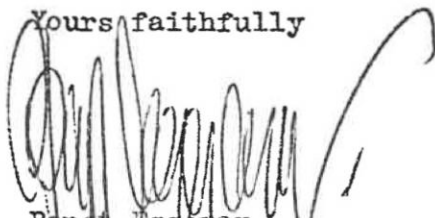

I first met Bhagwan Shree Rajneesh in India 1979. My meeting with Bhagwan Shree Rajneesh in person, and since then, following His work in books and tapediscourses has ment a great deal for me as a person and to my success in my occupation. I would say it has totaly opened my personal creativity and care as father to my family as well as manager for my companies.

Bhagwan Shree Rajneesh qualifications as a religious teacher and spiritual leader are above all doubts.

The work that is done in Rajneeshpuram is admirable. I really hope Bhagwan Shree Rajneesh will be given place and space to continue to inspirate the development of this ecological commune.

Finaly I like to congratulate the Nation of USA to the exeptional opportunity to offer such a personality a citizenship in your Nation.

Yours faithfully

Bengt Eggemar  
Manager director
