To Whom It May Concern,

I am a practicing psychiatrist in New York City and at the present time, the Director of the Institute for the New Age at 45 East 78th Street, NYC.

I have known Bhagwan Shree Rajneesh through his followers with whom I have worked professionally and I also know of him through his writings. I consider him to be one of the greatest religious leaders of our age who has brought a living religion to humanity and has contributed significantly to many people finding the God within themselves.

Sincerely,

John Pierrakos, M.D.
