To whom it may concern -

From 1974-77 I hosted an hour-long, live, five-day-a-week talk show (Etcetera, then Kaleidoscope) for Kansas City's ABC TV affiliate, Channel Nine.

I have interviewed Rosalyn Carter, Jack Anderson, Wm. Safire, Tom Wolfe, Joseph Heller, Margaret Mead, scores of movie stars, authors, composers your name it. All people considered to be of exceptional ability. Now I am working as a counselor (breath release movement dynamics) in Los Angeles. How trained as a TA and gestalt therapist, I can say that the works of Bhagwan Shree Rajneesh have shed more light on the mysteries of human relationships than the hundreds of psychologists. I

have studied over the years.

I am amazed & concerned to hear that the United States of America is considering the possible deportation of what I consider to be the most remarkable mind to grace our shores in the 20th century. I assure you, any country where this man resides will prosper in every possible manner. Please welcome Shogun Shree Rajnesh as a resident in the U.S.A.

Sincerely,
Nancy Parmenter
(aka Nancy Palmer,
