

TO WHOM IT MAY CONCERN

I have been involved in Aviation in one way or another since 1966 and through the inspiration and meditations made available by Bhagwan Shree Rajneesh I have been able to become a much more competent and safe pilot. Not only have I become aware of the tremendous contributions that Bhagwan's teachings have made in the aviation community, but also many other pilots have benefited as well.

I trained in South Africa, America and England. Many pilots I met were over-stressed, unhappy domestic lives, fear of being laid off etc. etc. Through the wisdom and understanding about the complexities of the human being, made available by Bhagwan, I feel that many of these problems and fears no longer exist and as a pilot where attention and responsibilities run high where stress situations can occur at any moment, the help and benefits from the meditations are invaluable.

I appeal to your good common sense to recognise the exceptional abilities of Bhagwan Shree Rajneesh. If His teachings have so enriched the Aviation world, how much more He can enrich mankind and especially America, a country whose greatness lies in the ability to recognise men with such vision.

Yours sincerely,

Swami Krishna Veetrag
