15th July 1983.

TO WHOM IT MAY CONCERN

This is to certify that I, Graham George Farrant, of 57 Erin Street, Richmond, Victoria, Australia, do hereby state that I believe that Bhagwan Rajneesh has exceptional ability in many fields of endeavour especially that of religious teacher and spiritual leader but also to have international renown and exceptional ability in my own particular field of science (medical psychiatry).

Amongst my post graduate qualifications are a Diploma in Psychological Medicine from McGill University, Canada, and a Fellowship in Child Psychiatry from Harvard University, Boston, U.S.A.. I also have degrees from London University and the Australian Royal College of Psychiatrists. I have held senior positions in Child Psychiatry in local universities and hospitals and have presented papers at several international conferences.

I have come to know of the work of Bhagwan through his numerous books, tapes and videos and wholeheartedly believe that what he has to say must be recognised as being an outstanding performance well above the standard required for professional competence in my particular field.

Innumerable patients of mine have resolved lifelong difficulties as a result of Bhagwan's work.

Yours sincerely,

Graham G. Farrant.
