Dear Sir,

As a psychologist, Bhagwan Shree Rajneesh gave me the real answer at the questions "What is a human being?" and "How the mind functions?." His teachings were such a help in my daily work and it is also true for so many people around me.

I heard about Bhagwan Shree Rajneesh when I was in a therapeutic community in Austria. The people were speaking about the power of His meditation techniques. Since I have practised meditation and lived in Bhagwan's presence for one and half year, I know that through love and awareness it is possible to live in a much better environment.

The enlightened master Bhagwan Shree Rajneesh is able to show a new way of living.

When He gave me initiation in 1978, I felt like He was able to read my thoughts and he was knowing my past life. I receive from Him such a love and guidance that never deceives me.

His understanding about religions and especially Christianity reveals to me an alive way to live religion. He have a sense of unity that can bring peace back in this world

Yours truly,
