TO WHOM IT MAY CONCERN

This is to confirm that Mr. Bhagwan Shree Rajneesh is a religion teacher and spiritual leader of an exceptional ability.

I am swiss economist specialised in theories of development of so called developing countries. The complexity of the task requires to have a good knowledge of economics, technology, agriculture and ecology as well as psychology, education, religion and philosophy. The reading of Rajneeshes books, his wisdom and unique wholistique view helps me to find the synthesis of the best of diverse cultures and use it for my work. This year I could experience the personal presence of Mr. Bhagwan Shree Rajneesh, which is very extraordinary. He stimulates the positiveness and the creativity in others in unusually powerful way just by his silent being.

In deep gratitude for all I have learnt by Mr. Bhagwan Shree Rajneesh
