

Hamburg, West-Germany
11th of July, 1982

Dear friends,

I really would like to tell you how angry I am about the behaviour of the American INS in Portland. It's ridiculous how they argue to prevent Bhagwan's staying in USA.

I am a consultant in publishing marketing, I worked many years in the former publishing house "Gruen + Jahr" (the famous magazine "Stern" is published there) and I got the academic degree "Diplom - Volkswirt". During all my job-time I saw so many frustrated and unhappy people and I was very frustrated myself.

Four years ago I met the first vaudeville who was a manager trainer. He became the group leader for many manager seminars in my company and I suddenly saw the big change in the behaviour of the group-participants in their normal job-life. This seminar was so joyful, happy, light and easy going that I got curious. In the following time I got many books from Bhagwan and did the meditations and my whole life changed. I discovered the adventure of life with the help of Bhagwan. Many friends of mine are getting curious because I've changed so much. They are asking: How can you be so happy?

More and more friends all over the world, mostly in Europe, ^{are} asking me where to find a center from Bhagwan, where to buy books and tapes and how to go to Rajawalparan.

Business-man-friends have already visited the road in Rajneeshpuram and they are deeply impressed by the work which is done, by the beautiful vaunyanis, their love and friendliness. These friends recommend to their friends to go to Rajneeshpuram to see this amazing experiment of living together in a community as a religious community.

They all see that love is the key for living life totally and in business too "love to yourself, trust to your intuition, creativity, ..." is the best condition for success.

I hope very much that you will get the permission for Bhagwan to stay in USA, in this country which became famous because of his declaration of freedom.

With all my love and hopefully seeing you soon in Rajneeshpuram,

Murphy Johnson
