Amitabh Rajneesh Med. Centre  
Prinsengracht 719  
Amsterdam

19 -7-'83

To whom it may concern,

At first I shall introduce myself:

I am B.Rijnhout, born at 28-1-'42 in Amstelveen.

After the primary school I did the High School (caalled HBS B) followed by the Higher Technical School for the Ready-to-Wear industry in Amsterdam.

I have worked about 8 years just in the Industry as well as in the Retail Trade as factory leader and as a buyer.

In the beginning of the seventies I started to study Social Psychology at the VU in Amsterdam.

Since '74 I am working as a "labour specialist". It 's my duty to bring out advise about them, who are unable to do their own work and I try to reintegrate them.

Besides I have to advise in matters as supplies for "invalids".

Daily I have to work with social and mental problems.

For this reason I believe it is my duty that I have to know much more than usual about cultures, religions, social behaviour, motivation, drives and so on.

In this way I have been brought in contact with Bhagwan movement and his tremendous influence at a lot of people in a good way.

The outstandingly abilities of Bhagwan have a great influence on our society and at many places sarcasme changed in sympathy and even enthousiasm.

I really hope that he will be able to continue his work on his way.

It is therefore that I request emphatically to provide him a visa for his residence in America.

Yours truly,

B.Rijnhout
