To whom it may concern:

I know Bhagwan is an exceptional master in any field that I have known about. Specifically in the fields that I've been working and practicing in the last twelve years.

First as an actress, who has been awarded in 1976 as best T.V. actress and in 1977 as best theatre actress, both awards in Puerto Rico, I understand that since I've been in tune with Bhagwan Shree Rajneesh all the methods he uses for de-programming ourselves, are the best way I ever know and ever helped me to liberate all tensions that couldn't let me express in a higher degree all my artistic talent.

Second, as a Drama teacher with a Bachelor in Educational arts, Bhagwan taught how to deal with the children I work, how to let them be, how to let them create and

of their childhood, not my
ups of behavior, but letting them act free
I find their own way of acting through love
Third, as a natural healer, ^{with minor studies in} I found ^{Science} in
inquire the answer ~~for~~ all the illness
and the way to heal them. I was sick of
cancer in the colon and did all thing possible
~~for many~~ to heal me. I passed several years
dealing with orthodox medicine finding out
what was my problem finally after years I
found through natural science that I had
cancer. I did everything I could with natural
healing, and I began the recuperation immediatly
but there was something that was holding me
in my sickness, I didn't know, until I
found Bhagwan and he helped me find
the roots of my disease and know I'm
healthy and happy.

Bhagwan Shree Purneesh is an expert
man of understanding and he can give Amer
ways of better ~~life~~ living and living for a
peacefull and happy humanity
