To whom it may concern

I am a teacher in a comprehensive school in Kiel ; my subjects are religion and music.

I learned much about BHAGWAN 's work from his books, tapes, and visits in several meditation centers.

His work is of a very encouraging influence to find an own way of understanding religious phenomenons and to find a way of living together in peace and joy.

I think this is not only my own experience but that of many teachers and jounge people that I know.

Sincerely

EXHIBIT "A-1152"

Dieter Becker
