Graphic Design Consultants

To whom it may concern

I got introduced to Bhagwan Shree Rajneesh, way back in 1969 when I designed one of his books. Later, I listened to one of his tapes, on my friend's insistence, that really changed my outlook towards life.

His discourses have really helped me in understanding people and particularly situations in life which leave us confused. This understanding has also helped me in my profession as a designer.

It is a beautiful experience not only to be listening or reading him but also to be connected to him. I have seen great transformation in people's life, who are his sannasins. I consider him to be a perfect Zen Master.
