Date 14 JULY 1983

The Chief Immigration Office  
United States Of America

Dear Sir

I hereby humbly request the Government of America to reassess the application of Bhagwan Rajneesh as to the best of my knowledge, America will definitely benefit by the Bhagwan.

As, at present time, people are undergoing lots of problems, and the unawareness of the untimely events, have planted fear in the lives of people. Because of such mental and other problems, they take to drugs and alcohols to seek some peace and happiness during their hardships.

To help the people, the main source is meditation, self-realization etc. which could be helped by Bhagwan Rajneesh if he is granted reassessment for application for visa and it will not be only to the benefit of the people of America but to the rest of the world. Since America has kindly given asylum to so many people, Bhagwan has a quality of best human being who has a wide knowledge of peace, consciousness, meditation and very many therapy like physic, Inner love, understanding, self-realization etc.

I know Bhagwan since 1969 when I was a student of graduation. I have come across lots of his lectures and meditation programmes in India. From his teachings I have achieved self-realization and feel peace within myself, also his teachings have made me understand the true meaning of 'Dharma'. I am qualified in commerce graduation am also holding Master degree in Management, with double graduation in Law. At present I am holding business in Kenya.

My request is for your kind understanding which will not be only to the benefit of the people of America, but to the rest of the world.

Thanking You

Yours faithfully

R A VYAS
