To Whom It May Concern:

I am an Air Force veteran of the Korean War and have been a businessman in California since 1961. I have read Bhagwan books and heard his tapes and although I am not a sannyasin I am a believer in his spiritual tutelage. It is not for any man to dictate to a spiritual leader how he is to lead his flock.

Bhagwan is a symbol of religious freedom and, as such, must be left to teach in his own manner. He must be kept in Rajneeshpuram to continue his great works. I will do all in my power to assist and I am asking your help and understanding in keeping a great force for love and life in our country.

Sincerely yours,
