To whom it may concern

I am an attorney in Heidelberg. I got my degrees in 1970 and 1972 at the University of Tübingen. I am also since several years involved in resocialisation of criminals.

I came in contact with the teachings of Bhagwan Shree Rajneesh from books and tapes, which I read and heard several years ago. Through them I gained a deeper understanding of the underlying causes (i.e. human motivations and emotions) of the many kinds of cases, with which I deal, ranging from individual problems to larger social conflicts. This made me much more effective in my daily practice.

I realised, that the realisation of human potential and development of consciousness was the only way, in which peace and freedom - individually and in social life - could be achieved. This could only be achieved through personal transformation and so I became a disciple of Bhagwan Shree Rajneesh.
