TO WHOM IT MAY CONCERN

Being a disciple of Bhagwan Shree Rajneesh for about three years now, I'd like to let you know some of my experiences with this extra-ordinary master.

I took sannyas in Poona, India, while starting with a process of transformation that would change my total life. During that period, through his lectures, through growth programs and just through 'being there' I came to experience a taste of something utterly new. Something that was already inside me that came to flower in his presence. A complete change of quality in daily life was initiated. Not only for me, but also for many friends of mine, it was and still is Bhagwan who radiates something that cannot be described but can, finally, be seen here in this city.

Without speaking to us Rajneeshees any more, He sets free an amount of energy that brings literally a desert to flower. It's our work and its results that make His silent teaching visible.

It's His love that enables me to keep going through a 14 hour day on our dairy farm, fulfilling me and turning every day into a celebration. In a sense, it's a prayer. It's lost all that I used to connect with the word "work". It's more a flowing worship, more than worth giving up completely my old life.

And again: Only He is the One who makes this possible, brings it to flower. I'm very proud to have spent some time here, to be one of His sannyasins, as proud as this country should be about this gift. It is an opportunity not to be missed.

May the United States of America not only accept but welcome such an exceptional teacher.

Sincerely,

Swami Dhyandeva
