To Whom it May Concern

As a professional musician/entertainer with over 20 years experience (recordings, films, T.V., Radio, etc.) & with a little recognition in this field, I feel it necessary to express the growing influence that the Love of my spiritual Master, Bhagwan Sh Rajneesh has, and does, exert on my art.

This can be seen as an objective influence of which I am becoming increasingly aware.

For many years I was a 'seeker', that is, one who felt a need to discover a deeper meaning to Life, and men of the spiritual calibre of Jesus Christ, Buddha, Krishnamurti + Gurdjieff were <sup>all steps</sup> toward the ensuing spiritual revelation afforded by a personal relationship with Bhagwan — a ~~at~~ living Master — the synthesis of all the foregoing.

It is my deep conviction that Bhagwan  
presence and work is of the utmost importance  
in our World today — just as, for instance,  
Jesus was in his times. In accepting Bhagwan  
as my spiritual Master, it is plain to me  
that I, as is the case with all Sanyassins,  
can contribute more fully, with more aware-  
ness, to the growth of a collective spiritual  
which just may direct the course of World  
events from its present suicidal tendency.

Yours sincerely

Tony Sheridan
