To whom it may concern,

As a lover and a disciple of Bhagwan Shree Rajneesh I would be very proud to say that half of the world already knows Him for his exceptional abilities — and the rest will wake up and will know Him very soon. The reason is very simple and very truthful. The reason is that when a man like Bhagwan or Jesus or Krishna takes birth on this earth, through his teachings, the human consciousness rises to the higher level, which is the ultimate longing of mankind.

Since the last 20 years Bhagwan's teachings have brought a tremendous change and awareness in human life. His 350,000 Samyasin's and many other lovers have experienced that the science and art are two sides of the same coin, and so, when the mind has been taken care by the heart, it works with love and becomes more creative and not destructive.

I would like to write about my own experience in life. Being in the restaurant business, since I came in

Contact with Bhagwan, my whole approach changed. Business didn't remain just a profession, but I learned that the loving atmosphere and respect for each guest makes so much difference. The food, which has been made with a loving heart definitely tastes much better.

Bhagwan's message to the whole of humanity is that man, in this age, is missing love. So we learn to respect everyone's inner god, and also learn how to feed their body and soul at the same time. So the work becomes worship for us.

Rajneeshpuram is the unique example. Under Bhagwan's silent inspiration, we have done beautiful work on this crimeless sacred city!

At the end, in my opinion, Bhagwan and America are made for each other.

Yours sincerely,  
Ma Asuna Bhandi
