

July 27/83

To whom it may concern:

I am a devotee of Baghwan Shree Rajneesh since 5 years and I consider him with absolute certainty a great Religious leader, one of the few men in the world now that can not only save the world from a III world's war but also help humanity to evolve towards a society based on the highest values (in which everyone is responsible for living them in the moment to moment with joy, love and laughter, because so life is really divine! -

Before meeting Baghwan I had been studying sociology with specialisation in anthropology completing it with the studies of the old religions especially Buddhism, Zen, Vedas, Sufis, yoga and T'ai chi -

Then meeting Baghwan was the premium of my search -

Luckily I had been for 3 years in Poona, India, in his presence, so became possible for me to experiment high states of awareness -

I learned that all the great men had been somehow persecuted: Christ, Socrates, Galilei, Amerigo Vespucci, Dante, Luther King... etc... but now in the 20th century we will not let it happen, learning from past mistakes but we will help the good to win over darkness at any cost, creating a world possible not only in the other life but in this too!!

His divine presence is so strong that being with Him in silence I feel to enter in a space limitless, vast and so peaceful that my whole being is filled up with bliss and pure love.

At first Baghavan gave us all the teachings possible, rendering more clear also the wisdom of the ancient prophets and guiding us in learning what meditation really is, and all that is now recorded in books, tapes, video-tapes. Now is time for us to experience directly the benefits of meditation, having being well prepared for it! and in His divine presence this experience is more easy and quick.

Being Him a truly Spiritual Master, has being recognized worldwidly as an exceptional intelligent and culturally well informed figure.

Moreover through meditation the mind became more clear, quick to find solutions to any search, more open to receive some inspirations.

The greatest art Baghwan is Teaching is to be so full of love and prayer so that God is guiding us every moment. And this is what is successfully happening around Him! -

And I don't have words for to express the immense gratitude because This is happening! And all This could happen only in the Great America, the country of the future, materially rich of possibilities and spiritually advanced in seeing God's will behind every religious flag! Seem unbelievable that such a miracle may still happen in an age so full of confusion, hate, violence, corruption but is happening! It is the minimum to see Him as a human being with His immense knowledge in philosophy, psychology, pedagogy, sociology, physics. His valuable presence will bring more glory and blessings to all of us

God bless you
Love
