I am writing this letter dealing with Bhagwan Shree Rajneesh and his teachings.

I first came to know Bhagwan in 1979. I didn't become a disciple right away, but I went to the center in New York. After studying his work for a long time I saw a lot of changes in myself. I became much happier in my life. I really enjoyed being with other disciples of Bhagwan, and I soon became one too.

I realize that Bhagwan's silence stirs a bit of questions to people who do not know what is happening here. Bhagwan's presence here is so wonderful. He has spoken for years and years, now just his love and presence here is simply terrific. I enjoy working here so much. All of my co-workers are so loving and caring. I find work fun. Bhagwan's being here does it.

Just to be able to see him drive

Sat sang us enough. When I see  
him something inside clicks on,  
and I'm filled with love and  
happiness. I think he is such  
a wonderful man. I truly  
hope he will be able to stay.

yours, Sincerely  
Ma Prem Madhu
