To Whom it may Concern

I have been a student of Counseling and education for the last five years, holding a BA. awarded at The University of MA. It wasn't until I met Bhagwan Shree Rajneesh that my helping and healing ability in the social services transformed I was suddenly living the concepts instead of just speaking of them.

The first time I picked up a book of Bhagwan's I knew he was a man of exceptional ability with significant affect to the field of Arts and Sciences. He is a teacher of life incorporating a synthesis from all areas of knowledge. He includes all of my most admired poets, psychologists, comedians, authors etc. He is a phenomenal being. His message for me in relationship to my career is of healing the split man. Through love and truth. For the real being to come forth, the total being, alive and whole.

Here at the ranch many of Bhagwan's techniques for healing and celebrating are being practiced daily as they are an awakening to thousands of participants -

For r. It is a living miracle to be here with him. To see our family growing in great harmony with each other on this soil and around the rest of the world. We work very hard and his presence is the juice that fuels us. We are all so happy here. Any one whom comes to visit can not deny this. We are radiating here in our work and love for Bhagwan.

I can not stress how strongly Bhagwan's Silence has affected myself and the community. He has said all that he can possibly say. (As every word has been recorded) Now we are living it. We have grown enough with him now to see that it is beyond words. He is an undescrivable miracle yet I attempt to convey what he is to have as I know communication with the rest of the world is crucial.

Being an American raised on freedom and justice for all, I am proud that my master is in such a strong and progressive country as this, as he is internationally recognized and his acclaimed caliber would be a tremendous and valuable asset to our country.

+ Close This letter now to state
That Bhagwan Shree Rajneesh is an asset to
any country. He is a living master here
with us now of the extraordinary kind.
For us to miss out on him now while he
is still alive would be a great loss to
the entire world.

Sincerely,

MA Prem Sarla
