To whom it may concern,

I want to know the whole world about
our master, this outrageous genius, I
love the most.

I am social worker (degree of a diploma)
and have participated many of therapy
groups before. Since I met Bhagwan
Shree Rajneesh my life got a dimension
much more alive. I am in more
contact with my inner being that
any other method of humanistic
psychology could lead me. I have
heard many of Bhagwan's discourses
at Poona where he has shown us
many different ways how to reach to
the inner self: the way of Jesus,

the way of Zen, the way of Tao,

Besides all these there were many therapy groups where we could let go of all the layers of fear, anger, hatred, etc.

Now Bhagwan is in silence. He communicates with us by his presence, especially through satsangs in times of festivals. There are festivals four times a year where he invites all his sannyasins to stay for one week or more.

His silent presence makes us to be silent, too and find out what is going on inside.

Never before I experienced a place where so much love and fun and joy has been happening while people are doing their work. The efficiency is obvious when you look at the city of Rajneeshpuram, for example. Everybody takes responsibility

for themselves, for others and for the
work, they are supposed to do.

By all my psychological, sociological
and religious background I've never
seen any other man with such an
ability to help people living a
joyous, loving and religious life.
I love him.
