To whom it may concern, I hereby testify to Bhagwan
Shree Rajneesh being an exceptional and outstanding
person.

In particular:

- 1 He is a religious person
- 2 He is a religious teacher and leader
- 3 He has a comprehensive understanding of
people and how to work with them to
improve their capacity to enjoy, meditate
and love
- 4 He promotes physical and mental wellbeing
in those around him
- 5 He is the inspiration of a commune that
has the following positive attributes:
 - a) it is engaged in the transformation of waste
land, reversing the ecological deterioration
and producing farm land, housing and
facilities for people
 - b) it provides considerable economic contribution
to the surrounding community

c) it provides beneficial growth groups, therapy, healing and a variety of humanistic courses open to all

d) it is a social experiment showing that people can live and work together with joy love and productivity; an ethic of a full and free life with an awareness of not harming others is seen to be viable,

P.S. I am English, 36 years old, qualified (H.N.D. Building) and work as a quantity surveyor. My opinion is based on my own experience and on observing others who have been in contact with Bhagwan - including my mother who has been greatly benefited by his meditations and therapies - both my parents will be visiting Rajneeshpuram in the near future - they are not Rajneeshes and will be here after I return to England.

I have read Bhagwan's books, heard his tape recordings, attended his therapy and

growth groups, received Satsang and Darshan (including spoken discourses and darshan).

The understanding and awareness which have grown as a result have improved my ability to focus on productive work and to interact with others with love and co-operation.

After receiving and celebrating Bhagwan's blessings in the 2nd Annual World Celebration I am taking a Rajneesh University course for 3 weeks. I am nourished by Bhagwan's presence here; it is beautiful to receive his blessings without the formality of Satsang/Darshan and the distraction of words. With his blessings understanding and awareness continue to grow.

I hope and request that you will give every co-operation to enable him to continue his work,
