

INTERESSENVERBAND

Wohnraumbedarf e. V.

- SEIT 1976 IM BUNDES GEBIET - RAT UND HILFE FÜR MIETER UND VERMIETER -

To whom it may concern:

I am a psychologist and member of staff of the health department of the federal state of Hamburg, training and counseling nurses to cope with death and dying patients.

I hold certificates in behaviour therapy and client-centered therapy. As a member of the board of directors of a national counseling association, I have been counseling clients for ten years.

Peers and friends introduced me to the ideas and counseling techniques of Bhagwan Shree Rajhnees personally, I find them very stimulating and extremely helpful for my work as a counselor as well. I am deeply convinced that he is and will be instrumental for healthier and better societies all over the world.

Bhagwan's creative approach to therapy, science, and art, as well as his innovative therapy and meditation centers, are too important to be neglected by government authorities.

At last, I recognized his tremendous work at Rajhneeshpura where I became a disciple at July, 1., 1983.
