To Whom It May Concern:

I am an attorney in Los Angeles and am writing this letter in support of Bhagwan Shree Rajneesh although I am not one of his followers.

This man is exceptional as both a spiritual leader and master organizer. His community in Oregon is a masterpiece of science and technology combined with spiritual commitment, love and celebration. Furthermore, throughout the world his followers create communities of the highest qualities.

He is exceptional as a spiritual leader as he has devoted followers all over the earth and his techniques show a deep understanding of all religions and are universal.

As an American citizen I give my total support to a person of such exceptional qualities staying in the United States.

Sincerely,

Sally North
