To Whom it may concern:

I have a Bachelor's degree in Political Science, 1972 from Bradley University, Peoria, Illinois, and a Master's degree in Public Law/Urban Affairs, 1975, from American University, Washington, D.C. Have taught American Government and Social Science at Washington International College in Washington, D.C. Prior to that have worked as an Administrative Assistant at a number of colleges, both American University and Washington International College, plus with a Ralph Nader Interest Group and an employment agency.

At other times I have been a legal secretary for a number of law firms. When I was nineteen, I founded and managed a book and record store which I ran for a year and a half. After completing my Master's degree, I took a four year world tour which brought me to thirty-nine countries on four continents - through Europe, North Africa, the Middle-East, and Asia. I have also travelled extensively throughout the United States, having visited all fifty states, and all ten provinces of Canada. During my travels, I became aware of Bhagwan Shree Rajneesh and his teachings.

Today I find my life fuller and more meaningful. The work I do both driving school buses, cars, and work in the kitchen of a hotel, as a dishwasher and running the stock-room, gives me an

inner cultivation and calmness that did not seem to exist before. With my continued awareness of Bhagwan, the people I come in contact with, and the situations I may deal with, all have a different appearance within me. Feeling Bhagwan's presence, creates for me a peace and tranquility. When something tense does occur, either on the road in a bus, or a situation in the kitchen, feeling that love and connection I have through Bhagwan's presence always makes me feel at ease. Knowing that every part of life helps me and my inner growth is a special gift that I have given myself forever.

Sincerely
