To Whom it may Concern

I have been a Childrens nurse for 6 years and I was not absolutely happy with my profession. Through meditation in a German Rajneesh Meditation Centre I felt very touched to Bhagwan Shree Rajneesh and the way Sannyasin lifestyle so that I decided to take Sannyas.

Since then my life has really changed in a more positive way of understanding life, especially my feeling towards my profession is now very positive and harmonious.

I feel grateful to be here in Rajneeshpuram as a visitor in the presence of Bhagwan Shree Rajneesh to feel his universal love, his wisdom and I will go back to Germany with this gratefulness, that Bhagwan has shown me how beautiful life can be.

The world really needs a awakened Raster and a living religion.

Sincerely

Angela Fiege
