To Whom it May Concern:

It went it known that I whole heartedly endorse Bagwan Shree Ragnesh's request for residency in the United States. Although I have not met Bagwan personally, my life has been immensely enhanced by his writings.

I am a Family Therapist and sometimes refer clients to specific books which I think will support growth and assist in clarifying the problem. Several clients have returned stating that they have found Bagwan's books particularly enlightening and thought provoking.

It is my opinion that this man has a great deal to offer the people of this country and that he should be graciously allowed to stay.
