To whom it may concern:

I am a caterer and a musician and a person who wants to give as much love as I can to this world. Because of this I am writing in support of Bhagwan Shree Rajneesh's residency in the U.S. He is a person who gives so much love to the world. In this time of great changes & uncertainty, he is assisting many people on the planet to become more positive, peaceful & loving. We need people like him in this country now because we need positive leadership. He is so exceptional as a leader for peace and love, the U.S. should welcome him with open arms. He totally supports the Declaration of Independence; he is the spirit of America and to turn him away is against all we Americans believe in.

Sincerely,
Patti Hood
