Dear Sir,

I'm thirty four and I'm physiotherapist.
I work with psychotic children and in private space.
For years ago, I want to go to Poona to meet Bhagwan
because I think He is not an ordinary people.
I've gone to Poona and I look everywhere.
Since this day, my work and my life has changed very
much.

You understand more about madness, about life,
but the understanding goes not through words, but
through meditation.

For me Bhagwan is a very extraordinary man,
His work is so full of love and so simple.

My english is too difficult to write more about
Bhagwan.
