Rinzai,

If my Government gave me 3 hours and 3 wishes before the end of the World,
I would wish the following:

- 1st hour with Bhagwan
- 2nd hour with Paul Volker
- 3rd hour alone

The first hour with Bhagwan would help me guide my life in every aspect of living.
The second hour with Paul Volker would help guide my future financially.
The third to outline my future as I feel the Government would not stick to the rules.

If we live in a free country with opportunity for all certainly we should not be putting
all our energy in trying to get rid of the few exceptional human's who wish to live here
but we should acknowledge Bhagwan as a rare resource and be grateful he has chosen
the United States.

His choice gives me a new faith in my Country and I hope in our Government.

Sincerely,

THE MERMAID'S BOUTIQUE
