

July 7, 1983

To whom it may concern:

This is to testify that in my work as a medical practitioner and professor for 15 years, the insight and visions I received from Bhagwan Shree Rajneesh have been, for me, of an enormous importance.

This unique way of looking at life made me aware of how I was looking at life and how my patients were. This man is a genius, of incredible value to all of us. He enriched my life and my work with people completely. Everybody on this earth should know him.

I studied medicine at the University of Utrecht (Holland) and became an M.D. in 1964. Since 1975 I have been training doctors in their final post-graduate year for the Universities of Amsterdam, Utrecht and Nymegen.

A handwritten signature in black ink, appearing to be 'G. C. van Gent', written in a cursive style.

G. C. van Gent, M.D.
Wagenweg 48
