TO WHOM IT MAY CONCERN:

I am a physical therapist practicing the Hellerwork method in Marina Del Rey. I am writing this letter on behalf of Bhagwan Shree Rajneesh so that he may be allowed to remain in this country. It is quite apparent and clear to me that Rajneesh is a most exceptional human being and a shining example of love to all mankind. The man has written in excess of 350 books including important commentaries on virtually all modern and ancient religious traditions. He is a world religious leader of great import and has the spiritual endorsement of even Ven. the Dalai Lama of Tibet, himself. Rajneesh is obviously prolific and has enriched the lives of hundreds of thousands of people, and has never harmed anyone.

For these reasons and more, I consider him to be a profoundly exceptional person and I consider it an honor that he should choose to reside in our country. For God's sake and mine, please let him stay.

Sincerely,

  
Roy I. Strassman
