I feel it is vital to have Bhagwan Rajneesh stay in the U.S.A. as a religious leader. As a Physician and Psychiatrist I have seen the effects of his powers as a religious healer, cure the wounds of emotional pains in my patients, friends and family.

I had to travel to India five years ago to be in his enlightened presence. If he had to leave the country now, we would lose an opportunity to show to the world that this is the home of freedom of religious expression.

Yours,

Christopher T. Selvage MD
