To whom it may concern

There is no doubt miracles has happened on this land, and not to mention in the state of Oregon, since Bhagwan has arrived here, This desert is quickly becoming an oasis, where before there was not enough water for a small family to live comfortably.

Two years later 15,000 people come to celebrate with their beloved Master. Fully accommodated, including showers, toilets and being served gourmet food, cooked mostly by organically grown vegetables grown on the land.

The world has never seen a festival of this size happen with so much love and grace. And none of this would have happened without Bhagwan Shree Rajneem. He is our inspiration and through his love for his disciples and our love for him this community is blossoming.

Starting long before the sun rises in the morning, the dance of the food being cooked is a sight to see. Where 50, 60 quart pots of soup is a small quantity and getting up to 140 pots when serving mashed potatoes, gravy and vegetables.

To see, 15,000 people, from all over the world, sitting for over an hour every morning, sharing his silence with the silence of the hills all around, takes your breath away.

There is no doubt that the intelligence of the people attracted to a man of this calibre is very high, so naturally the quality of the work that happens here is exceptional.

It's an opportunity not to be missed, it won't come again for thousands of years.

Yours sincerely,

Ma Jivan Kavya

Rajneempuram
