To whom it may concern

I'm writing to you to express much gratitude. First of all for being with Bhagwan Shree Rajneesh, the living Master. For being able to be near him and help build a home for ourselves and all who can recognize him.

He has been my inspiration for nearly 9 years and through his teachings and visions I've been able to grow and overcome so many of life's mishaps.

He is a light at the end of the tunnel.

Also after so many years we are in a free country where one is provided with the opportunity and inspiration to workship and work as one chooses.

I came to America as a child with my parents and had my education here. I was able to get a B.A. in Sociology and was able to work with people less prosperous than myself and channel energies to help them.

My family and education in the U.S. exposed me to the vast potential of human growth available in this country.

I'm just ever so grateful I can be with my Master here in this free country.

Here we are developing the new scope, under his guidance, to live together, be creative, and show the world about living in love all the time.
