TO WHOM IT MAY CONCERN.

I went to school until 13 year and got middle scientific
diplome, I work two years in the army, I am truck driver
and I am house painter.

I know Bhagwan since I went in a meditation center in
Belgium.

For me the meeting with Bhagwan was the most beautiful thing
in my life. Reading his books, listen his discourses, doing his
meditations, have completely changed my life; I feel far more better,
more alive, I enjoy much more my work, I am healthy.
Bhagwan has ideas in all the fields (ecology, political, psychologie
science) and all he says can really help humankind to see live in
a nicer way, more constructif, respecting everybody and everything. There
will be no more wars, no more people hungry, everybody would be
happy. For all these reasons I feel that Bhagwan is a person of
exceptional ability.

All his says can be found in Rajneeshpuram it's the most beautiful
town in the world. Everybody his polie, welcome it's so alive. I am
happy to spend some time in Rajneeshpuram.

Every country should be happy to have such a exceptional person in his
country. It's really a great chance for the U.S.A to accept such a
beautiful man giving so much energy. I hope he will be stay in
the states.
