To Whom it may concern:

I'm a student of law in Germany and a disciple of my Master Bhagwan Shree Rajneesh. 2½ years ago I read a book of Bhagwan. I travelled to India and I made so many experiments; so I became more alive, more joyfull, more peacefull. This is so amazing, just to feel so much love, living close to Bhagwan and all these disciples.

And even this feeling of inner peace became more strong, when I stayed in Rajneeshpuram for the festival in 1983. It is so beautiful to see Bhagwan once a year, and when I go home to Germany, I like to share all what I got here, that there is nothing to fight, nothing to reach, but just become an ordinary man.

By loving Bhagwan, and there is no need of words, I became a new man. This is what I feel, this is what my parents and friends in Germany also feel.

I feel so grateful that Bhagwan is still alive. Now there is no more seeking, I got what I was looking for a long time. Before I became a disciple I studied and it was useful and successful, but since meeting Bhagwan there is more joy, more inner freedom and also more success, that other students became really interesting and a few of them became also Sannyasin. And I also learned so many things about my body by more consciousness. It is so difficult to explain, because the really important experiment was to sit close to Bhagwan, to feel his presence, his patience. I'm used to explain everything, but there is no way. It is pure love and gracefulness.
