Rajneeshpuram, 26. July 1983

To whom, it make concern!

I am here in Rajneeshpuram as a visitor during the 2. World Celebration Festival. I'm a disciple of my religious master Bhagwan Shree Rajneesh. Bhagwan is for me an enlightend man like Buddha, Jesus Christ. If I stay close to a real holy man like Bhagwan, than it can happen that I and all the other people here can make a step closer to the heaven. If we don't fall in love with ourself and the universe, the world will end in a disaster, in a katastrophe. The Third World War is very close. And I have not much hope, that the political leaders in East and West, in U.S.A and U.d.S.S.R. can prevent with all their A-Bomb.

the 3. World War.

It is a big luck for the United States, that Bhagwan decided to stay here, as here, in Central Oregon, the real revolution has began

It is not a power-revolution. It is a changing of my and all other hearts to real love, to love us and all without any conditions.

This is for me only possible near to Bhagwan, here and now.

If the Immigration office takes Bhagwan out of the U.S.A., American miss a big, big chance for his own growth for a positive future, full of love and understanding in this world.
