TO WHOM IT MAY CONCERN

Love.

The Master silence period does not disturb our relationship. His silence does not influence the meditations, which I use to do.

Anyway, I feel to be very close to him. We are close to each other. His energie involves me, it is in the air... I become through the meditations or even if I sit down in front of his picture and just look at him. Just love him. Yes... My Master. Feeling this love is the real point. I does not a matter if he is talking or not. It really does not.

Love.

Much love.

Maybe it is important to say that I have became a Sannyasin last year, by end of november.
