To whom it may concern,

Bhagwan has said and he still says  
for those who are really listening!

"You may be thousands of miles away,  
but if your heart is beating with me, if you are  
attuned with me, if there is an inner connection,  
then you are in my physical presence. Neither  
time makes any difference nor space. The thing that  
makes the difference is love."

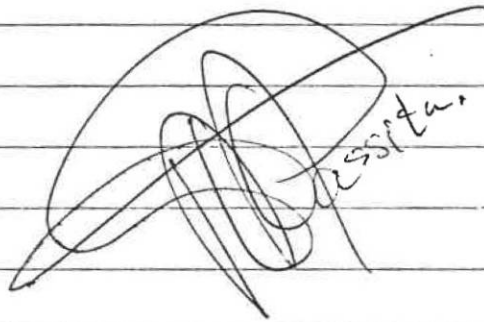

This was exactly what I felt three years  
ago. I was in Holland and asked Bhagwan in  
a letter to initiate me in to sannyas. Before  
I never saw him. After three years I am still  
his sannyasin and love is growing, day by day.  
For those who are really listening words aren't  
necessary, everything has been said already. I hope  
that you'll try to understand this.

I hope that the day will come that America  
says yes to Bhagwan.

Bhagwan will show the world the solution  
for all problems. Look and you will see that  
it is already happening! Don't throw this  
opportunity away.

Yours faithfully
