

Alexde . 2 . 8 . 1983.

To whom it may concern,

I would like to say something about my religious activities, as a disciple of Bhagwan Shree Rajneesh.

I live with 50 other disciples (sannyassins) in the city called by our master the Stad Rajneesh in Holland.

We live and work together in a atmosphere of cooperation and love, inspired by the vision of the enlightened master Bhagwan Shree Rajneesh.

As one of the workers outside the commune (I am working as a nurse in a mental hospital), for me it is very important to be present at several religious activities like meditation, sannyas-initiations, in which new disciples are initiated and of course the Satsang, the silent communions with the Master. It keeps me in balance during the work I am doing during the day.

A beautiful experience .. the Second Annual World Celebration 1983, with 15,000 participants, is for the only possibility every year to be with my beloved Master.

My feelings about this celebration I cannot describe. It is a tremendous experience.

Yours sincerely
Ma Mika Gyandita
