To whom it may concern,

I am a sannyassin, a disciple of Bhagwan Shree Rajneesh called Swami Deva Narayano.

I am born on July 31-1960 in Eindhoven Holland. Since March 1980 I am a disciple of Bhagwan, and since October 1982 I live in the Sannyas-Commune Sadhana in Amsterdam Holland.

My experience in this commune, which is part of "de Stad Rajneesh" in Holland, is that Bhagwan's energie is felt very good in the Buddhafield, the energy around a living Master and his disciples.

This Buddhafield I felt very strong during my recent visit to Rajneeshpuram, Bhagwan's commune in Central-Oregon, U.S.A. During that time in the presence of Bhagwan Shree Rajneesh, I really felt his guidance in my life, although he doesn't speak anymore.

What I learned from Bhagwan is how to be total in everything I do, how to live my life as total as possible. I try to bring his guidance into practice in my work inside the commune, which can be from cooking to hardy manual work or anything else.

I also try to do this in my work as flowerarranger in one of the Big flowershops of Amsterdam.

I do this work, showing that I am a sannyassin by wearing red clothes and my Mala.

Bhagwan doesn't speak anymore but to me he is a great guidance in my whole life and my recent visit to Rajmashpurani made this again more clear to me.

Being in the presence of Bhagwan means so much to me, He is my Master and I love him,

Greetings to Swami Deva Narayan:
