

Einakoven august

To whom it may concern,

In december 1980 for the first time I took part in a growth group in one of Bhagwan's meditation centers. I had never heard of Him before, nor read any of His books and I was much impressed. Although He wasn't there physically, my experience of His presence was overwhelming.

After this experience I had no choice but become a disciple of Bhagwan Shree Rajneesh. I have been doing meditation techniques since then and I read ~~of~~ ^a few of His books. Although he has spoken many words, all else it was clear to me that He is pointing towards something which is beyond words. Now that Bhagwan has stopped giving discourses he is communicating on a different level.

I now live in a commune with other disciples where we put Bhagwan's words into practice and where we share our experiences. Long ago Bhagwan has said that he wanted to create Buddhafields all around. This is what has happened now and his presence is strongly felt. Twice a day we do the Gadhamsi's, the chanting of some Hindi sentences.

For me this is a way of communicating
with my master, as is the wearing of the
mala.

For the last two years I have been with
Bhagwan in Rajneeshpuram during two weeks.
This meant a lot to me. So I truly
hope to go there again in the coming year.

Yours sincerely,

Wilma Leussen, Ma Dhyam Poo
